CORY "GH5T" JAMES — FULL STACK WEB DEVELOPER

cory@gcodes.org | **Available** upon Request | From Wisconsin Aged 31 | Portland, OR United States

Profile Summary

Self-taught web-developer with extreme motivation to build highly modernized applications and design beautiful things. I have a keen sense in problem solving, have the ability to adapt to a team environment, and can learn just about anything with a little hands-on experience.

Professional Skill

- Web Design
- Marketing
- Web Development
- Brand Management

Languages known

- Javascript / Typescript
- React
- C#
- HTML/CSS

FRAMEWORKS

Most experienced with React-based frameworks like NextJS and embraced TailwindCSS for UI styling. Additionally, I've explored 'no-code' frameworks such as Webflow, Noodl, and FlutterFlow, and have become very proficient with Bubble.

Work Experience

BuildAppolis - Founder   *2023-Present*

- Created the front-end and back-end infrastructure.
- Built over 25 plugins and counting from scratch with over 1200 application installs.
- Established and small and sustainable client-base for front-end and backend development.

General Construction - Various Companies   *2020 - 2024*

- Essentially a side gig to keep a sustainable income.
- Very handy with woodworking.
- Able to work with just about any type of tool.

VT Platforms - Co-Founder   *2019- Present*

- Contract various events in Portland and coordinate with other promoters and creative artists.
- Creating the backend, also handling all the social media.

GameCreek (Vail) - Floor Manager   *2012 - 2014*

- Handled data entry for all day shift employees and assured accuracy on scheduling and payroll.
- Setup various training sessions for different roles for the front and back staff.

Interests

- Financial market
- Building apps / communities
- Counseling / support
